

//programe to demonstrate use of polymorphism in c#.net

```
using System;
namespace Charp_shell
{
    public class program
    {
        void add(int a, int b)
        {
            int c = a + b;
            Console.WriteLine("addition of a and b = "+c);
        }
        void add(int a, int b, int c)
        {
            int c1 = a + b + c;
            Console.WriteLine("addition of a b and c = "+c1);
        }
        public static void Main(string[] args)
        {
            program p = new program();
            p.add(10,20);
            p.add(10, 20, 30);
            Console.ReadLine();
        }
    }
}
```
